

The only catalytic converter anti-theft solution that alerts you of a theft in progress.

Protect your fleet from today's #1 threat – **Catalytic Converter Theft.**

The CATrak anti-theft solution significantly reduces catalytic converter theft by triggering an **ear-bleeding 140 dB siren** while alerting in real-time via **SMS the vehicle or fleet owner** during a theft attempt. Our proprietary **Cut Detection Trigger (CDT)** sits at the heart of our smart vehicle monitoring solution and is the **ONLY** catalytic converter theft deterrent system on the market to alert you when your fleet is being crippled - costing you thousands in lost time and revenue.

PREVENT

A 140 dB alarm siren is triggered when CATrak senses a thief is tampering with a vehicles exhaust system.

ALERT

Our Mobile App notifies you and others you define when a catalytic converter theft is in progress.

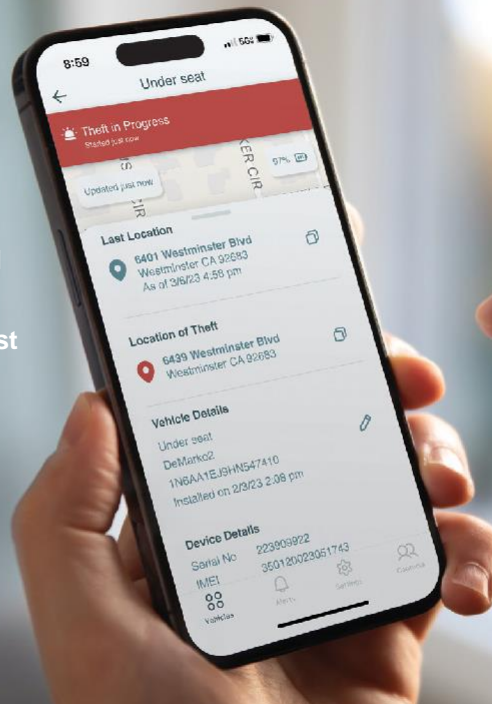

LOCATE

Our Mobile App records where and when the attempted catalytic converter theft is happening.

RECOVER

The vehicle's VIN number is paired with the device serial number for identification and potential recovery.

The CATrak Advantage

- The ONLY smart catalytic converter theft deterrent solution on the market
- Single or Dual-Cat Monitoring Solution
- Consumer Friendly, Fleet Proven
- Prevents Multi-CAT Thefts
- Unlimited Vehicle Monitoring Capabilities
- Easy to Install, Easy to Monitor
- Ear-Bleeding 140 dB Alarm Siren
- Tamper-Proof Real-Time Monitoring
- Mobile Phone Alerts & Notifications
- Easy to Use Mobile App
